

Family Service Hours

Our school depends on the time provided by our volunteers. The participation of each family is critical to the success and continued growth of our school community.

All school parents are members of the Parent Teacher Organization (PTO). The PTO's primary purpose is to enrich the school program. All school families are required to contribute a minimum of 15 hours during the year on approved PTO projects. Parents, guardians, or adult family members may contribute service hours. A list of service opportunities will be available in May for the next school year.

Outstanding service hours will be billed at the \$25 hourly rate and will be due the last week of the current school year. Service hours not paid by August 1 will be added to the FACTS account for those paying with the FACTS tuition management. Failure to complete PTO hours could adversely affect future financial aid awards.

The principal may use discretion to excuse a family from service hours. This policy will be reviewed annually.
